

## **Public Notice – Intent to File an Application with the USDA Rural Development, Rural Utilities Service**

The Harrison County Regional Sewer District intends to file an application for federal financial assistance with the U.S. Department of Agriculture, Rural Development, Rural Utilities Service for a wastewater treatment plant improvements project. The project includes the replacement of the existing Berkshire Pointe/New Salisbury package type wastewater treatment plant with a more modern and efficient type plant. The project is needed because the capacity of the existing plant has been allocated and additional treatment capacity is needed. The proposed improvements will allow the plant to meet its permit requirements and provide for the proper disposal of wastewater generated by existing and future customers.

The public is invited to attend a meeting regarding the development of the proposed project. The purpose of the meeting is to give the citizenry the opportunity to become acquainted with the proposed project and to comment on such items as economic and environmental impacts, service area, alternatives to the project or other issues that may arise. The meeting will be held on February 17, 2023 at 8:45 a.m. at the Harrison County Community Foundation Building, 1523 Foundation Way NE, Corydon, IN 47112.

Any comments regarding the application or the public meeting should be submitted to the Harrison County Regional Sewer District, P.O. Box 266, Corydon, IN 47112.
